4. Clerks Update & Correspondence, and to Resolve to agree any subsequent actions.
The Clerk made comment that a response had been received from Lincolnshire Road Safety Partnership (LRSP) regarding the possibility of a pedestrian/zebra crossing near the school.
Response is below –
*Our colleagues in the Education Team have been out to assess the location.
In terms of the parking, there were 5 or 6 vehicles parking on Scarle Lane, but they were away from the school site due to the School Safety Zone area. So, none that were blocking visibility or causing any issues.
Some parents used Hill Top Close and walked down and crossed the road.*

The School Safety Zone and advisory 20mph speed limit seems to be doing its job and there is a crossing point identified within it that parents and children use. With no vehicles parking here, the visibility is good and traffic speed quite low. Approx 25 children crossed the road, all with parents. This figure is quite low when compared to many other sites and the fact that all were accompanied means that the criteria for a School Crossing Patrol is not met.

In terms of measures, the existing layout is good, and I know that you have a reactive speed sign on the approach. Also, the parents seem to respect the School Safety Zone and park sensibly and accompany their children across the road to the school site. So, all in all, the location wouldn't warrant anything further at the moment. Our education colleagues do go into the school and offer road safety advice and training to the staff and children from time to time.

The Clerk made comment that an email had been sent to the editor of the Eagle Eye, offering parish council support to ensure the Eagle Eye continued to be an asset of the community in its current paper format, as yet no response has been received.
The inventory of the street lighting had been circulated to all councillors as requested.

Cllr Thompson along with the Clerk had followed up the request for the grit bin on Thorpe Lane, Lincolnshire County Council are waiting to assess location.
